LABELING

§ 300.2 General requirement.

Each and every wool product subject to the act shall be marked by a stamp, tag, label, or other means of identification, in conformity with the requirements of the act and the rules and regulations thereunder.

§ 300.3 Required label information.

(a) The marking of wool products under the Act shall be in the form of a stamp, tag, label or other means of identification, showing and displaying upon the product the required information legibly, conspicuously, and non-deceptively. The information required to be shown and displayed upon the product in the stamp, tag, label, or other mark of identification, shall be that which is required by the Act and the rules and regulations thereunder, including the following:

(1) The fiber content of the product specified in section 4(a)(2)(A) of the Act. The generic names and percentages by weight of the constituent fibers present in the wool product, exclusive of permissive ornamentation, shall appear on such label with any percentage of fiber or fibers designated as "other fiber" or "other fibers" as provided by

section 4(a)(2)(A)(5) of the Act appearing last.

(2) The maximum percentage of the total weight of the wool product of any nonfibrous loading, filling or adulterating matter as prescribed by section 4(a)(2)(B) of the Act.

(3) The name or registered identification number issued by the Commission of the manufacturer of the wool product or the name or registered identification number of one or more persons subject to section 3 of the Act with respect to such wool product.

(4) The name of the country where the wool product was processed or manufactured.

(b) In disclosing the constituent fibers in information required by the Act and regulations in this part or in any non-required information, no fiber present in the amount of less than 5 percent shall be designated by its generic name or fiber trademark but shall be designated as "other fiber," except that the percentage of wool or recycled wool shall always be stated, in accordance with section 4(a)(2)(A) of the Act. When more than one of such fibers, other than wool or recycled wool, are present in amounts of less than 5 percent, they shall be designated in the aggregate as "other fibers." Provided, however, that nothing in this section shall prevent the disclosure of any fiber present in the product which has a clearly established and definite functional significance when present in the amount stated, as for example:

"98% wool
2% nylon."
